

Energizing the Future

Investor Update:
April 2025

Cautionary Statement Regarding Forward-Looking Information

Much of the information contained in this presentation is forward-looking information based upon management's current expectations and projections that involve risks and uncertainties. Forward-looking information includes, among other things, information concerning earnings per share, rate case activity, earnings per share growth, cash flow, sources of revenue, dividend growth and dividend payout ratios, sales volumes, capital plans, credit ratings, credit metrics, debt-financings, construction costs, investment opportunities, corporate initiatives (including the ESG Progress Plan), rate base, and environmental matters (including emission reductions). Readers are cautioned not to place undue reliance on this forward-looking information. Forward-looking information is not a guarantee of future performance and actual results may differ materially from those set forth in the forward-looking information.

Factors that could cause actual results to differ materially from those contemplated in any forward-looking statements include, but are not limited to: general economic conditions, including business and competitive conditions in the company's service territories; timing, resolution and impact of rate cases and other regulatory decisions, including rider reconciliations; the company's ability to continue to successfully integrate the operations of its subsidiaries; availability of the company's generating facilities and/or distribution systems; unanticipated changes in fuel and purchased power costs; key personnel changes; unusual, varying or severe weather conditions; continued industry restructuring and consolidation; continued advances in, and adoption of, new technologies that produce power or reduce power consumption; energy and environmental conservation efforts; electrification initiatives, mandates and other efforts to reduce the use of natural gas; the company's ability to successfully acquire and/or dispose of assets and projects and to execute on its capital plan; terrorist, physical or cyber-security threats or attacks and data security breaches; construction risks; labor disruptions; equity and bond market fluctuations; changes in the company's and its subsidiaries' ability to access the capital markets; changes in tax legislation or our ability to use certain tax benefits and carryforwards; changes in and uncertainty around federal, state, and local legislation and regulation, including changes resulting from the transition to a new presidential administration, in rate-setting policies or procedures and environmental standards, in the enforcement of these laws and regulations and in the interpretation of regulations or permit conditions by regulatory agencies; supply chain disruptions; inflation; political or geopolitical developments, including impacts on the global economy, supply chain and fuel prices, generally, from ongoing, escalating, or expanding regional or international conflicts, or from the imposition of tariffs or other changes in U.S. trade policy; the impact from any health crises, including epidemics and pandemics; current and future litigation and regulatory investigations, proceedings or inquiries; the ability of the Company to successfully and/or timely adopt new technologies, including artificial intelligence; changes in accounting standards; the financial performance of the American Transmission Company as well as projects in which the company's energy infrastructure business invests; the ability of the company to obtain additional generating capacity at competitive prices; goodwill and its possible impairment; and other factors described under the heading "Factors Affecting Results, Liquidity and Capital Resources" in Management's Discussion and Analysis of Financial Condition and Results of Operations and under the headings "Cautionary Statement Regarding Forward-Looking Information" and "Risk Factors" contained in WEC Energy Group's Form 10-K for the year ended December 31, 2024, and in subsequent reports filed with the Securities and Exchange Commission. Except as may be required by law, WEC Energy Group expressly disclaims any obligation to publicly update or revise any forward-looking information.

The Premier Energy Company in America's Heartland

Business Customer
Satisfaction Study

* As of Mar. 31, 2025

Exceeded or achieved EPS guidance for multiple decades

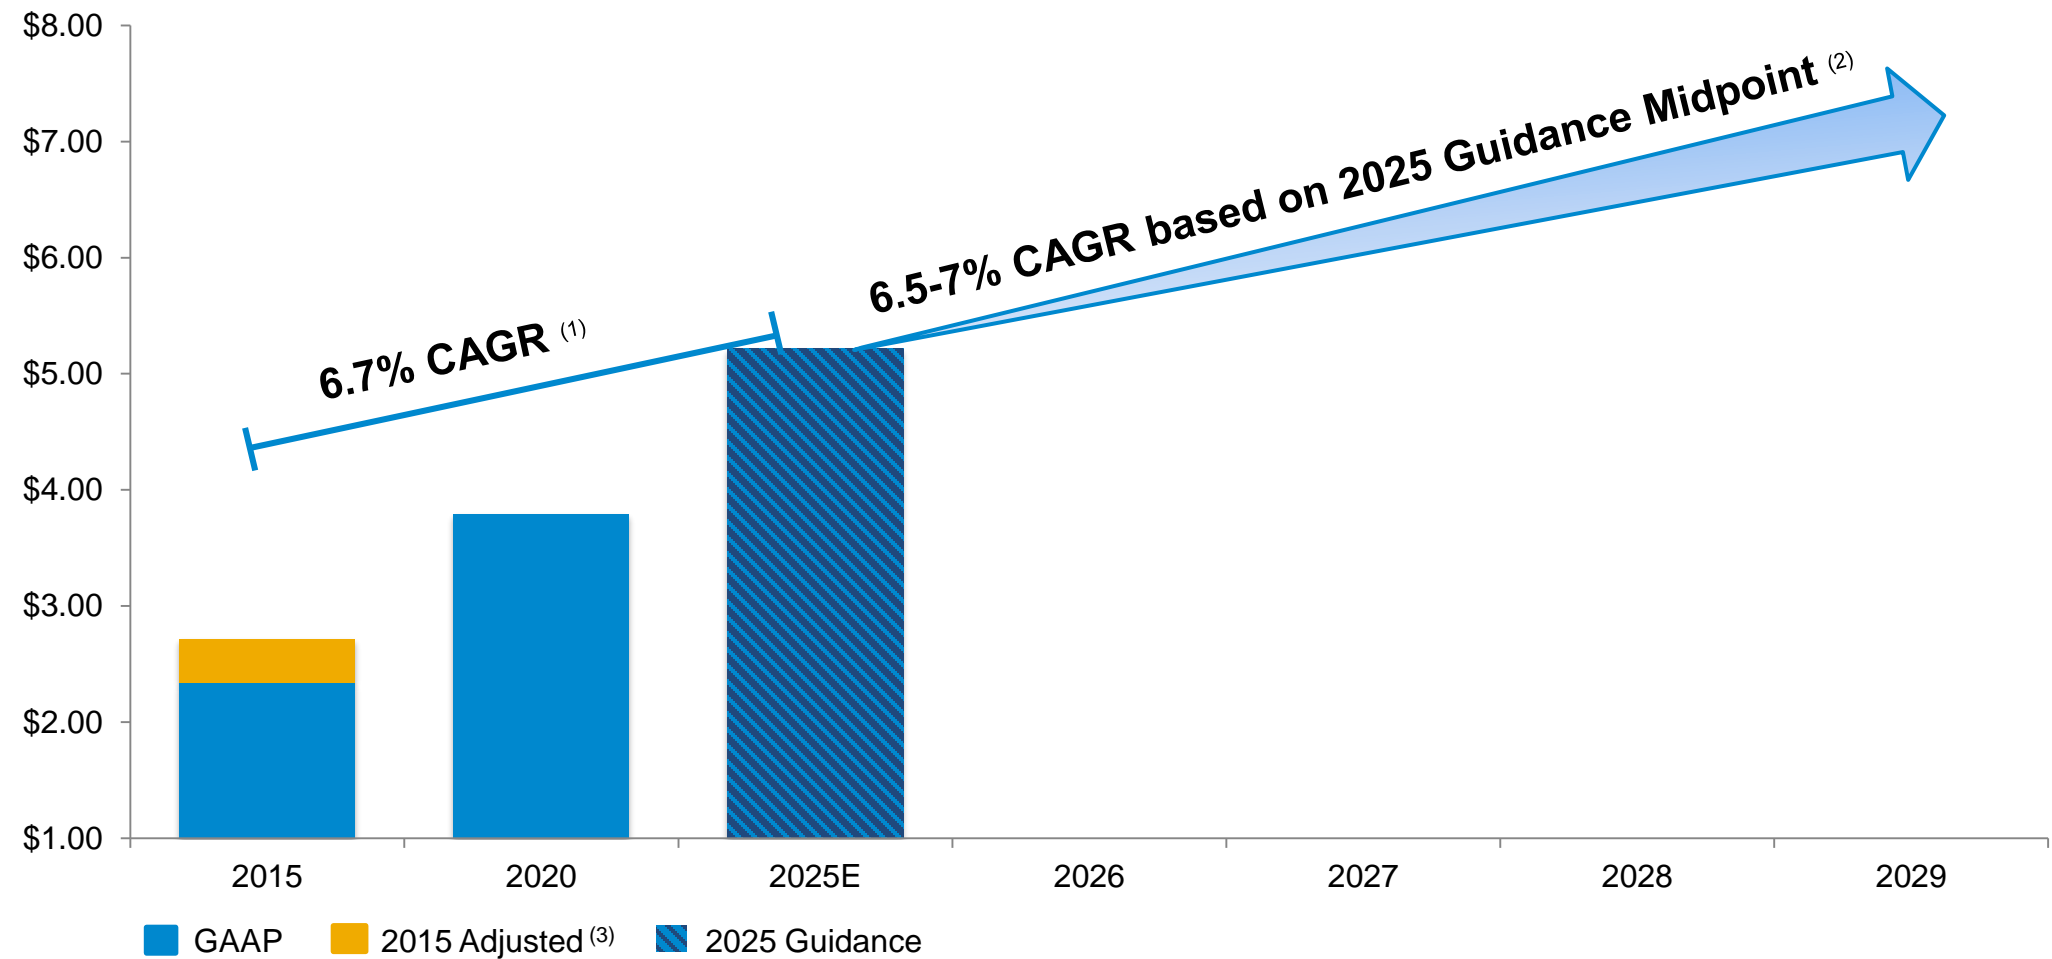

History of Consistent, Strong Earnings and Dividend Growth

* Estimated based on 2025 guidance midpoint of \$5.22 per share.
** See Appendix for reconciliation of adjusted amounts to GAAP amounts.

* Annualized based on 4th quarter 2015 dividend of 45.75 cents per share
** Annualized based on 1st quarter 2025 dividend of 89.25 cents per share

Consistent and Robust Long Term EPS Growth Outlook

(1) Growth rate off 2015 base of \$2.73 adjusted EPS and 2025 guidance midpoint of \$5.22 per share.

(2) Based on 2025 guidance midpoint of \$5.22 per share.

(3) See Appendix for reconciliation of adjusted amounts to GAAP amounts.

Consistent Performance Over Time

*21 consecutive years of
exceeding or meeting top
end of earnings guidance**

* On an adjusted basis

Strong Dividend Growth Continues

- In January, dividend was raised by 6.9% to a new annual rate of \$3.57 per share*
- 22nd consecutive year of rewarding shareholders with higher dividends
- Top-decile dividend growth in industry**
- Included in S&P's High Yield Dividend Aristocrats Index

* Annualized based on the first quarter of 2025 dividend of 89.25 cents per share.

** Reflects current and expected dividends declared in 2025.

What's New?

Very Large Customer (VLC) Tariff

Meets the unique needs of very large customers while *protecting other customers and shareholders*

- Applies to customers with 500 MW or more of forecasted new load
 - Customer subscribes to a portion of one or more dedicated generation resources
 - Terms:
 - Wind and solar: 20 years
 - Depreciable life for natural gas and battery storage assets
 - Fixed for entire term: Return on Equity of 10.48% and Equity Ratio of 57%
 - Revenues and costs recovered through tariff will be excluded from future rate case proceedings and earnings sharing mechanisms
 - Early termination: customer pays for remaining net book value, to the extent it cannot be repurposed
- Filed with the PSCW on March 31, 2025; all terms subject to PSCW approval
 - PSCW order required by May 1, 2026, for customers to take service on June 1, 2026

Very Large Customer (VLC) Tariff

Meets the unique needs of very large customers while *protecting other customers and shareholders*

“Microsoft is committed to being a responsible neighbor in Wisconsin. As we continue to develop a \$3.3 billion data center campus in Mount Pleasant, the draft tariffs submitted to the Public Service Commission will ensure we are protecting other rate payers, paying our own way, and ensuring energy needs are met throughout the state.”

– Bobby Hollis, Microsoft Vice President of Energy
Milwaukee Journal Sentinel
March 31, 2025

1,800 MW of Additional Demand through 2029

© Mark Hertzberg

Image of Microsoft area 3B representing 315 acres

“The most important thing for people in Wisconsin to know is that we’re fully on track with construction on our datacenter in Mt. Pleasant, it’s still expected to go online in 2026, and our \$3.3 billion commitment remains intact. We are committed to our projects to help prepare the workforce and Wisconsin manufacturers for the future.” – Microsoft Spokesperson

- 2,300 construction jobs
- 2,000 permanent jobs over time
- More than 2,000 acres purchased to date

‘Mount Pleasant AI data center will be among the world’s most advanced’

–Brad Smith, President of Microsoft
BizTimes Milwaukee

Incremental Data Center Demand*

Cloverleaf Infrastructure announced plans to develop a large data center campus in Port Washington:

- Initial announcement referenced 1 GW of load
- Approximately 1,700 acres
- Early stages of development

*Not currently included in 2025-2029 capital plan

Pipeline Replacement Program (PRP)

- In February 2025, the ICC lifted the pause and directed Peoples Gas to focus on replacing all cast and ductile iron pipe that has a diameter under 36 inches by January 1, 2035.
- The ICC will evaluate the prudence of work and costs in future rate cases.
- Approximately 1,100 miles of older, cast and ductile iron pipe (less than 36 inches in diameter) will need to be replaced.
- We are evaluating the impact of this order on our operations and capital plan.

Powering Industry Leaders in Our Region

Longer-Term Sales and Load Growth Remain Strong*

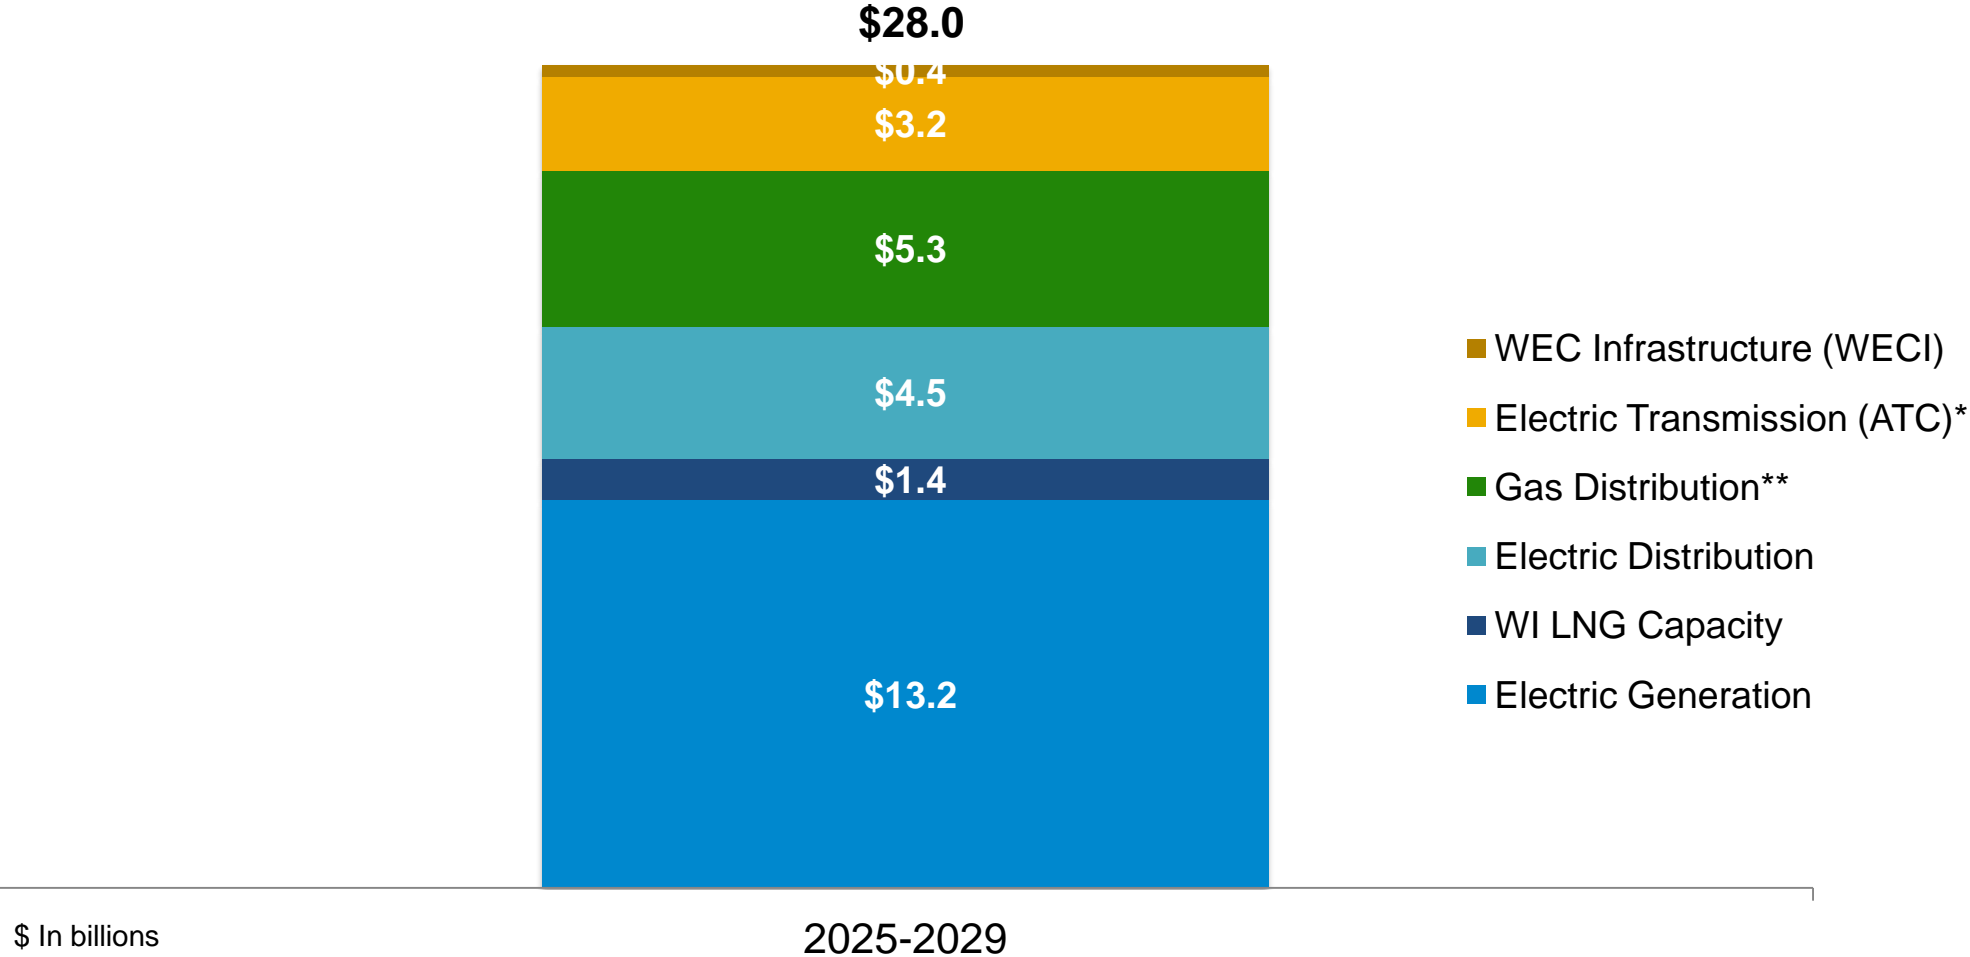

Sales Growth Forecast *(weather-normalized)*

By Business

By Jurisdiction

Exiting Coal

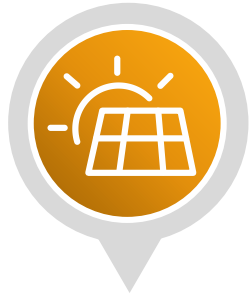

We plan to eliminate coal as an energy source by end of 2032.

- Since 2018, we have retired nearly 2,500 MW of fossil fuel generation, including Oak Creek Units 5-6 (May 2024).
- Retirements planned:
 - Oak Creek Units 7-8: 611 MW (late in 2025)
 - Columbia Units 1-2: 300 MW (end of 2029)
 - Exploring conversion of at least one unit to natural gas.
 - Weston Unit 3: 328 MW (end of 2031)
- Enhancing fuel flexibility (gas blending) at Oak Creek Power the Future units and Weston Unit 4.
- By end of 2030, we expect to use coal only as a backup fuel.

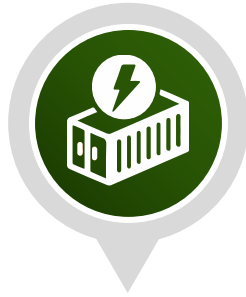

Investing \$9.1 Billion in Regulated Renewables

Plan to build and own 4,300 MW – more than **quadrupling** our carbon-free generation.

2025-2029 Plan includes:

Solar Total
2,900 MW
\$5.5 billion

Battery Storage Total
565 MW
\$0.9 billion

Wind Total
900 MW
\$2.7 billion

Grand Total
4,365 MW
\$9.1 billion

Modernizing Our Gas-Fueled Generation Fleet

Combustion Turbines

Filed: Oak Creek *

- 1,100 MW planned
- Expected investment: \$1.2 billion

Additional planned

- 675 MW planned
- Expected Investment: \$960 million

Gas lateral

Filed: Rochester Lateral*

- To support generation at the Oak Creek campus
- Expected investment: \$200 million

RICE generation

Filed: Paris*

- 128 MW planned
- Expected investment: \$280 million

Additional planned

- 114 MW planned
- Expected Investment: \$250 million

Modern, efficient natural gas generation serves as a critical resource in our energy transformation.

* Filed and pending regulatory approval.

Investing in Reliability for Our Natural Gas Network

LNG provides a solution to meet peak customer demand for heating and ensures gas supply for power generation.

New proposed LNG storage facilities are needed to ensure gas supply for winter reliability.

- **Oak Creek LNG facility***
 - 2 Bcf
 - Expected investment: \$456 million
- **Plans underway for an additional 4 Bcf**
 - Expected investment: \$940 million

* Filed and pending regulatory approval.

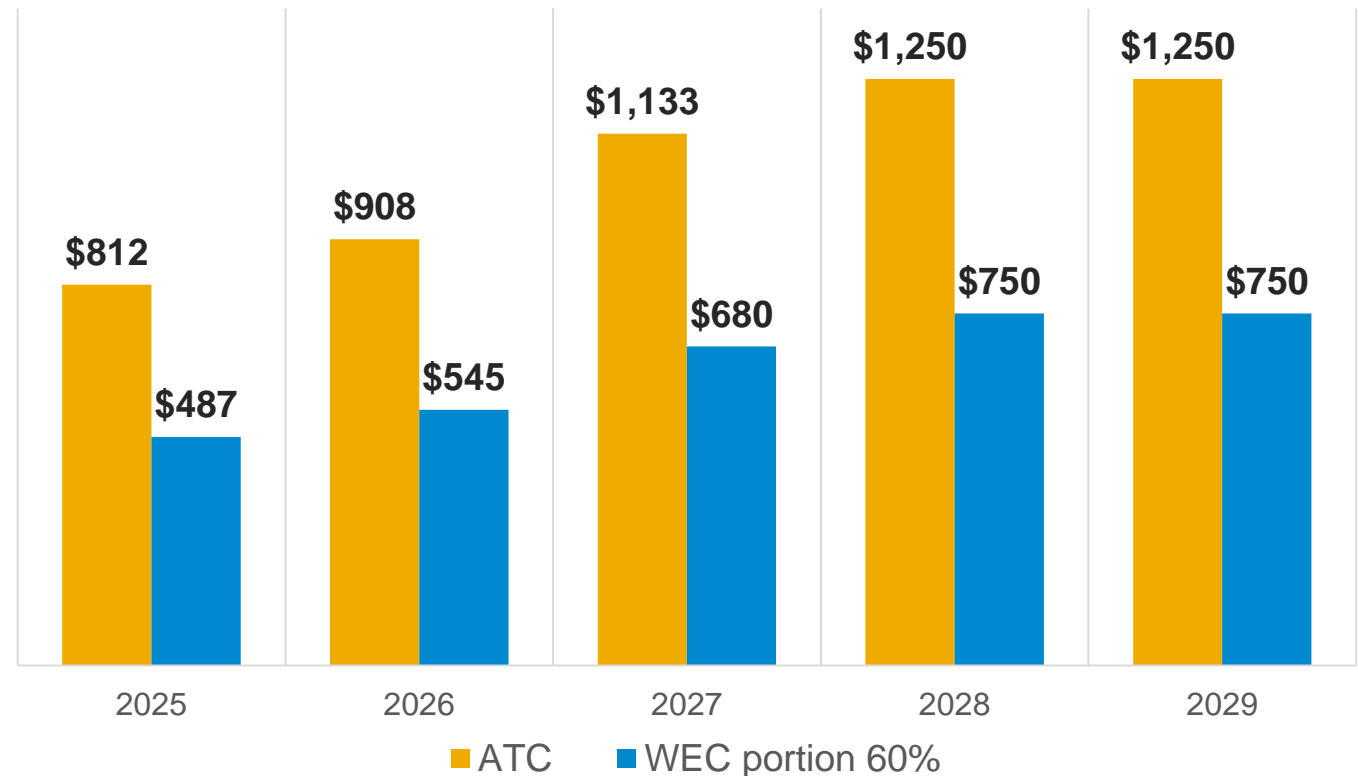

Future Transmission Investment

WEC portion of ATC investment expected from 2025-2029: \$3.2 billion

Capital Drivers:

- Economic Growth
- Reliability / Asset Renewal
- LRTP Tranche 1 in 2024 dollars:
 - ATC: \$1.2 billion
 - WEC portion: \$700 million
 - \$580 million in this plan
- LRTP Tranche 2 planning underway
 - Expect investment 2030 and beyond

Projected Capital Expenditures (millions)

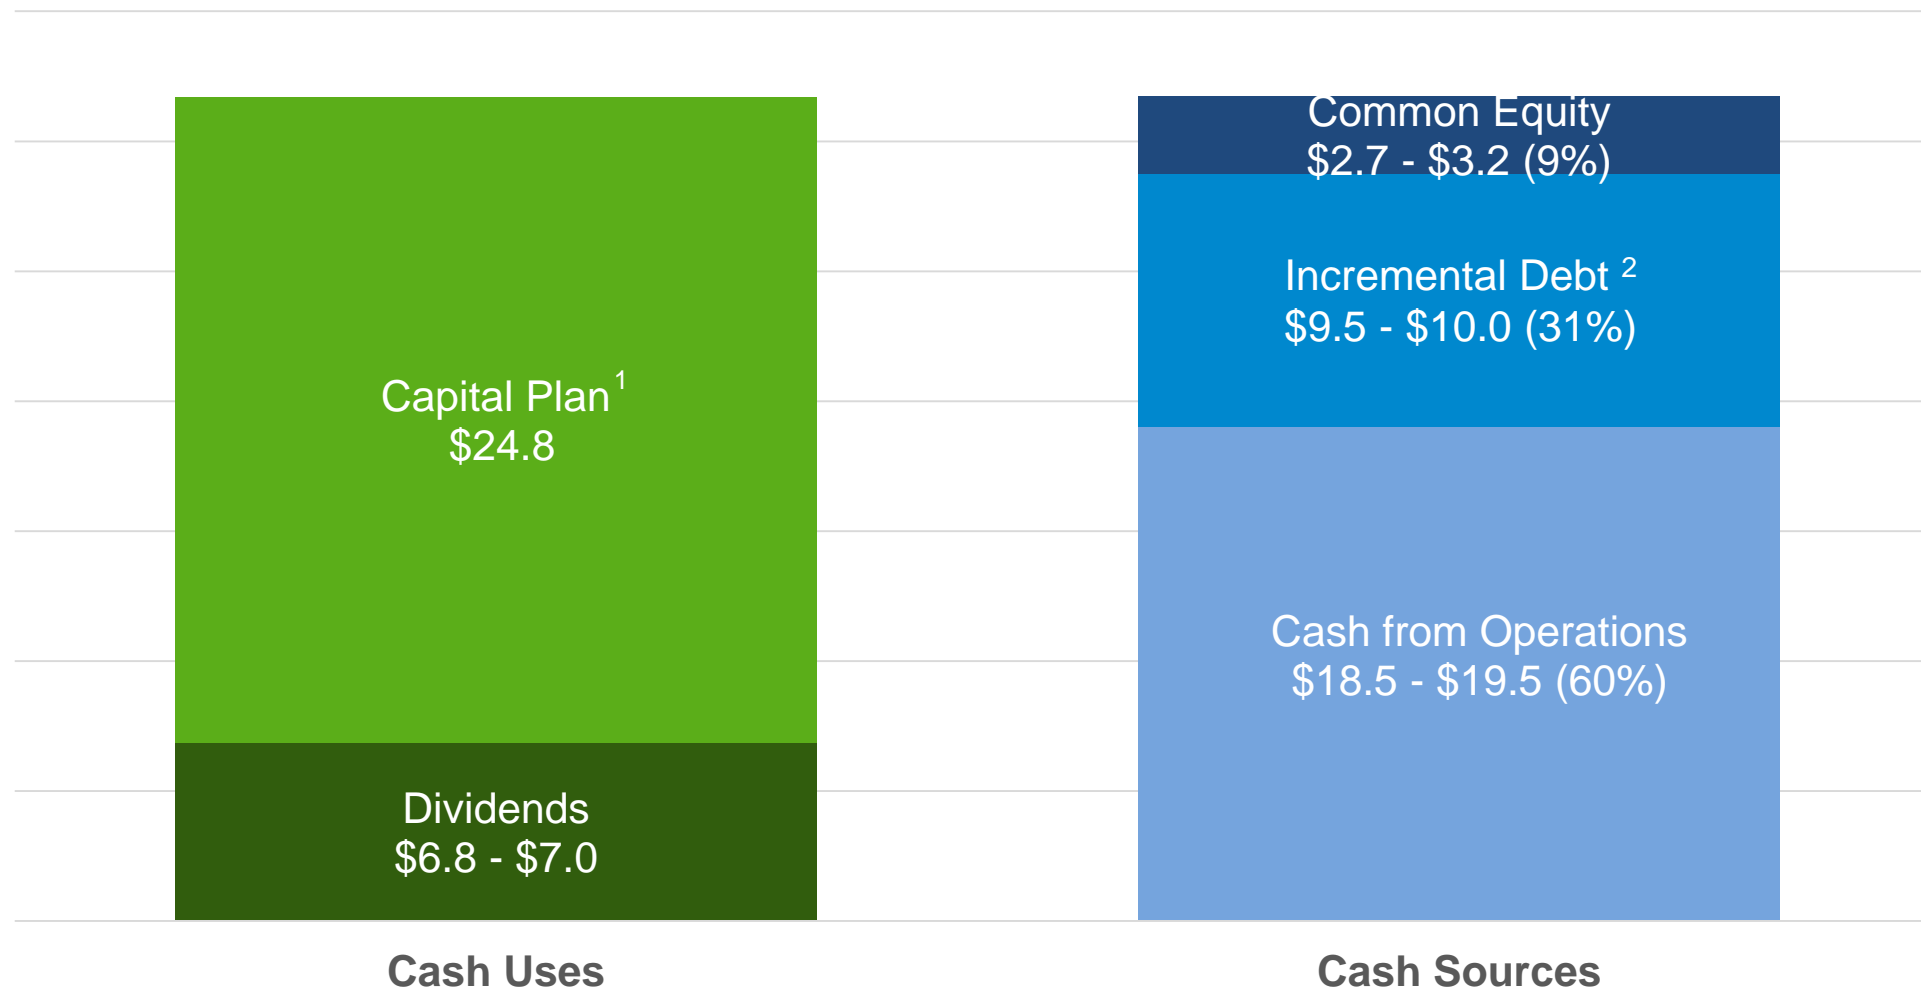

Long-Range Transmission Planning Tranche 2.1

- \$2.0 billion – Estimate for projects ATC expects to be directly assigned
- \$1.8 billion – Estimate for projects in/connected to ATC's footprint open to competition.
 - If right of first refusal is enacted in Wisconsin, ATC expects its share would be \$1.5 billion.

Projected Cash Flows and Financing Plan

(\$ in billions)

2025-2029

1. Excludes ATC's capital. ATC is accounted for using the equity method.

2. Includes \$2.2B - \$3.0B of junior subordinated notes or other securities with equity content.

Credit Quality – Maintaining a Healthy Balance Sheet

FFO/Debt Metrics 2025-2029

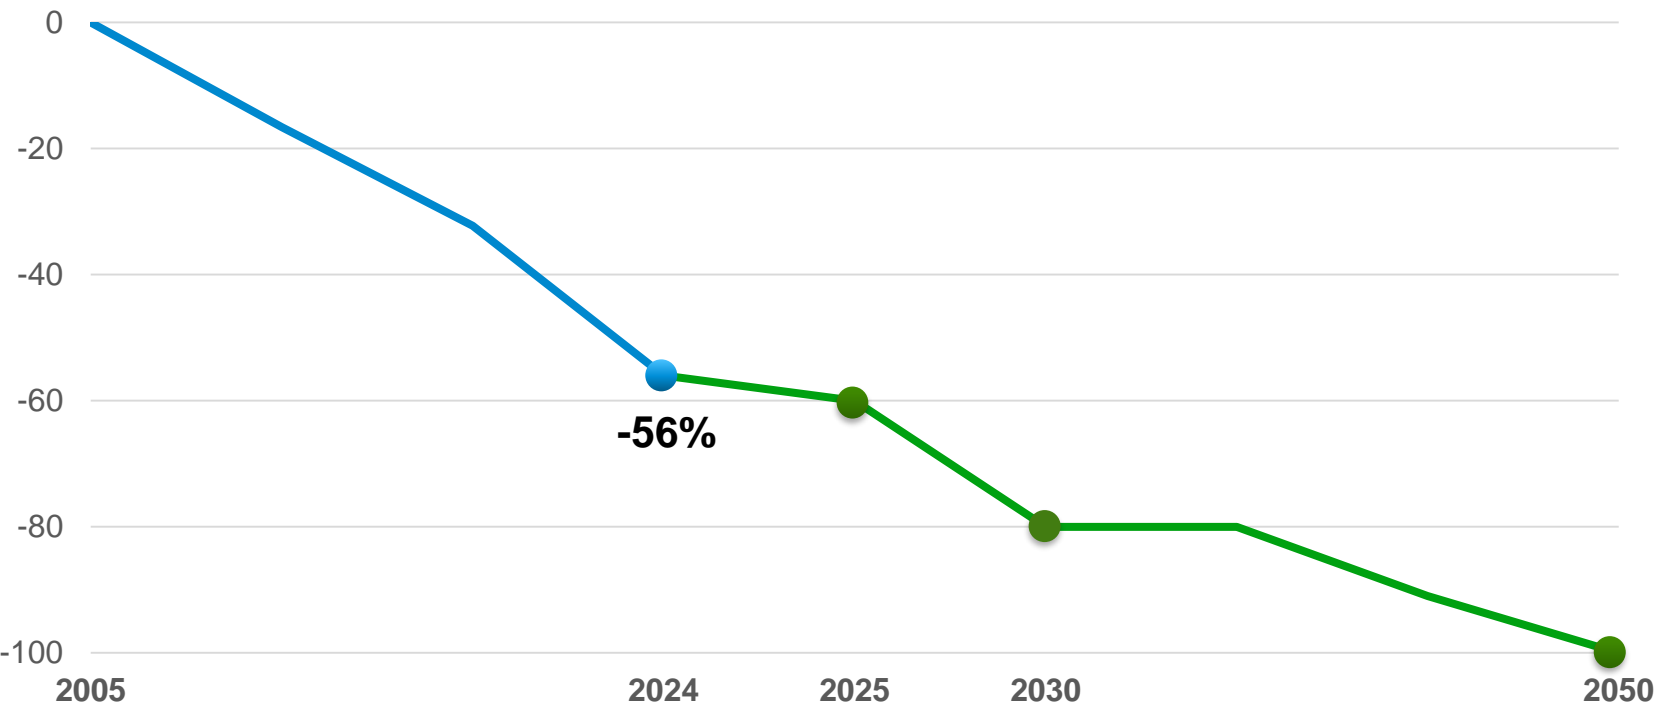

WEC Energy Group	Target
S&P FFO to Debt	≥15%
Moody's CFO Pre-WC/Debt	≥16%

Current Issuer Credit Ratings

Entity	S&P Rating	Moody's Rating
WEC Energy Group	A-	Baa1
Wisconsin Electric	A-	A2
Wisconsin Gas	A	A3
Wisconsin Public Service	A-	A2
Peoples Gas	A-	A2

Carbon Reduction Goals – Electric Generation

Achieved and anticipated CO₂ reductions (net mass)*

We have established aggressive carbon reduction goals for our electric generating fleet, aligned with or surpassing global emissions pathways aimed at limiting warming to 1.5°C.

*Includes projection of potential carbon offsets by 2050.

Reduction goals:

60%

below 2005 levels
by end of 2025

80%

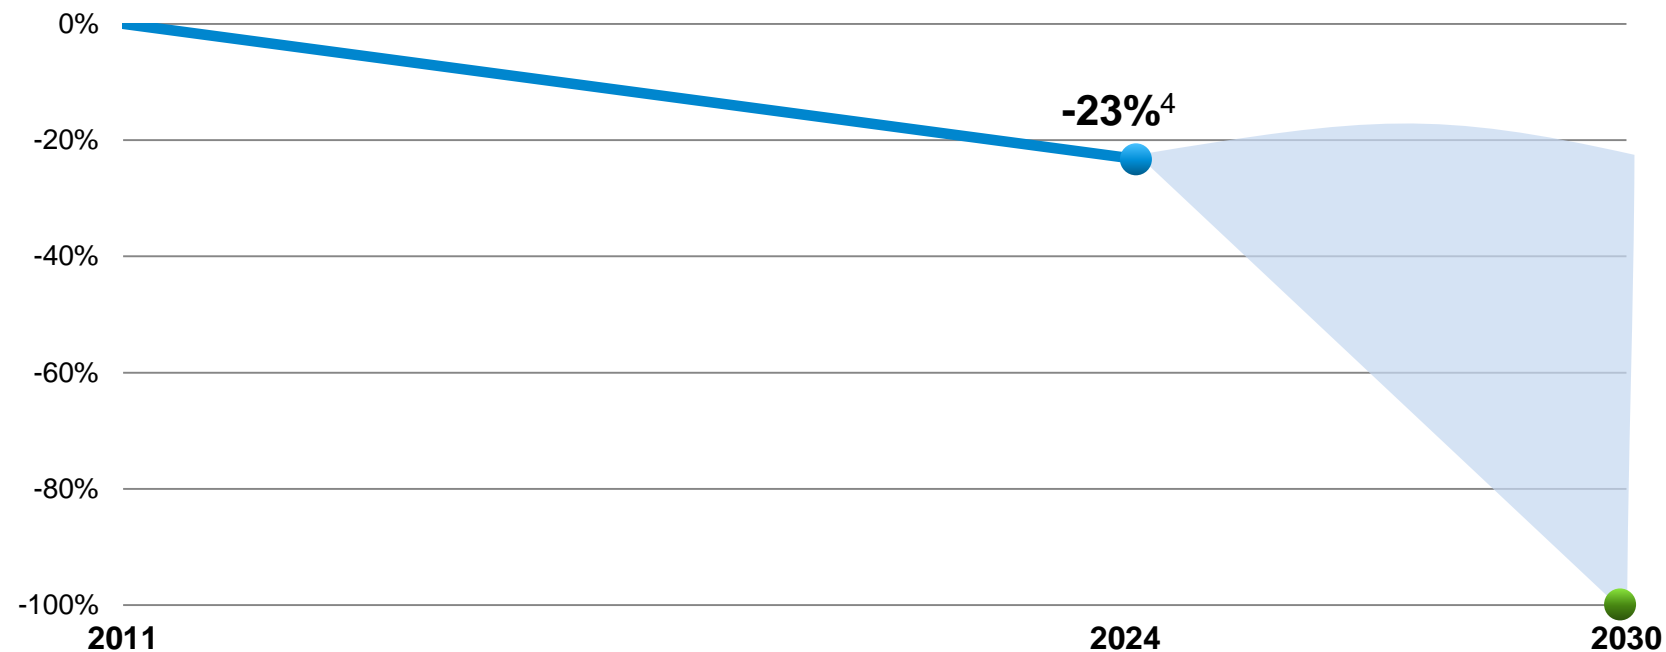

below 2005 levels
by end of 2030

**Net carbon
neutral**

by 2050

Methane Reduction

Achieved¹ and anticipated methane emission reduction from natural gas distribution. Aligns with effort to limit warming to 1.5°C.

- 1. Represents a decrease in the rate of methane emissions across our system from a 2011 baseline.
- 2. This goal applies to emissions from WEC Energy Group natural gas distribution companies calculated in accordance with EPA's 40 Code of Federal Regulations Part 98, Subpart W reporting rule.
- 3. Assumes regulatory approval for and purchase of Renewable Thermal Credits.
- 4. Mandatory Greenhouse Gas Reporting Program, 40 CFR Part 98 Subpart W-Petroleum and Natural Gas Systems reporting information for goal estimation is preliminary and subject to change after regulatory reporting.

Goal:
Net zero
by end of 2030²

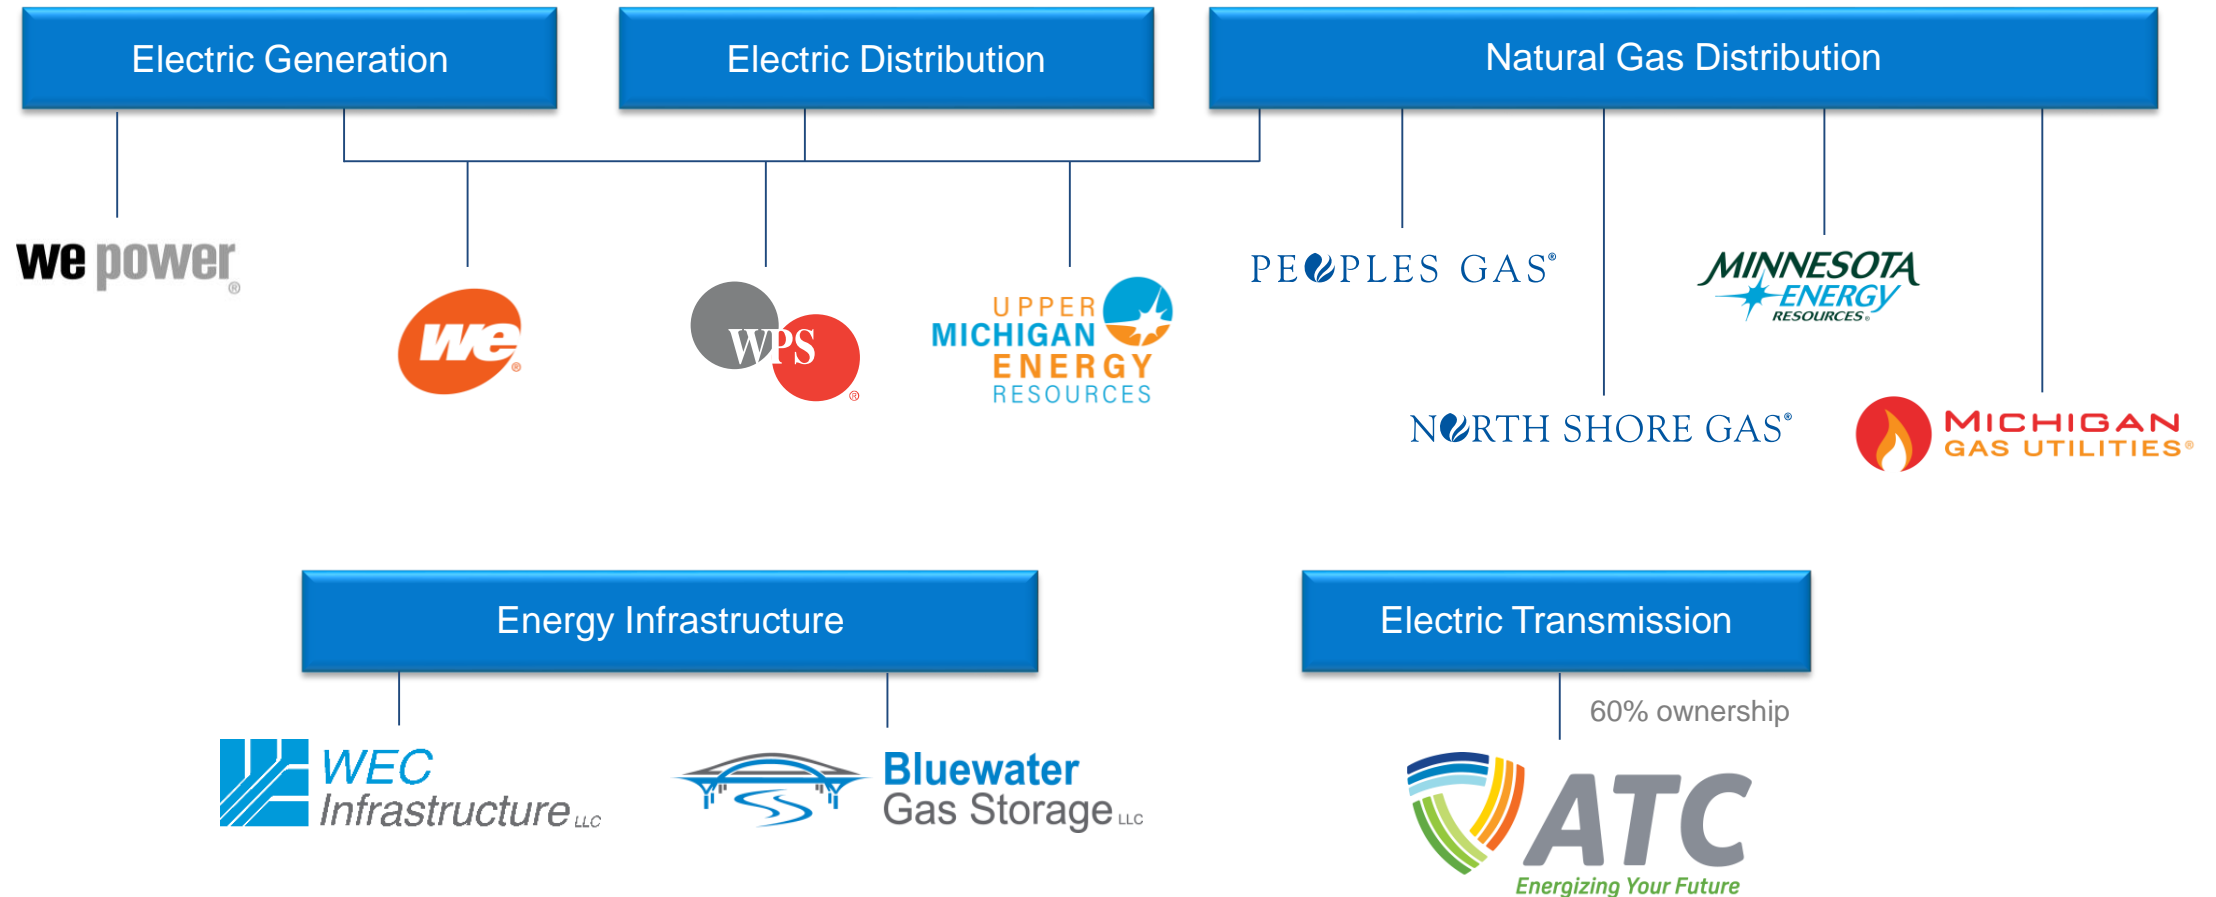

Use of renewable natural gas (RNG) is expected to contribute to our goal.³

Key Takeaways for WEC Energy Group

- Consistent, industry leading earnings growth.
- Top-decile dividend growth.
- Capital plan supported by economic growth.
 - Drives premium long-term EPS growth of 6.5% to 7.0%.
 - 98%+ of capital allocated to regulated businesses.
- Aggressive environmental goals in place.
 - By end of 2030, we expect to use coal only as a backup fuel.
 - Exit from coal planned by end of 2032.
- Poised to deliver among the best risk-adjusted returns in the industry.

Commitment to Stewardship and Governance

Responsible Governance	Appointed six new independent directors since 2020 — increasing depth of utility experience of our board of directors
\$20+ million	Contributed by our companies and foundations to nonprofit organizations in 2024
\$332.4 million	Spent with certified minority-, women-, service disabled- and veteran-owned businesses in 2024
\$128.0 million	Spent on energy efficiency and conservation in 2024

Exiting Coal

Investing in Innovation

Organic Flow Battery Storage

- Leading a pilot project to test a new 'green battery' – a form of long-duration energy storage that incorporates environmentally friendly materials.
 - Partnering with EPRI and CMBlu Energy
- Project will test battery system performance, including the ability to store and discharge energy for up to twice as long as the typical lithium-ion batteries in use today.

Columbia Energy Storage Project

- 20 MW carbon dioxide based, long duration battery project being developed at Columbia Energy Center
 - Partnering with Energy Dome, Alliant Energy and Madison Gas and Electric
- Battery charges by converting CO₂ into a compressed liquid stored under pressure. Liquid is converted back to gas to power a turbine generating electricity without emitting CO₂.

1. 2025 Electric increases include fuel

Illinois Proceedings

Future of Gas Investigation

- ICC opened a docket to examine the Future of Gas across the state of Illinois.
- Second series of workshops ongoing and completion date extended to the first quarter of 2026.

2023 Rate Order

- Peoples Gas booked a non-cash charge of 41 cents per share in 2023 related to the disallowance of construction costs for modern service centers and facilities.
- In conjunction with the Rate Order and limited rehearing, the ICC disallowed \$117 million of costs largely related to unfinished and reliability work under the Safety Modernization Program.
- Appeal filed June 2024 and is expected to take 12-18 months for decision.

2016 Rider QIP Reconciliation

- In August 2024, the ICC disallowed approximately \$14.8 million of capital spend, ordering Peoples Gas to include in its next rate case the return of and on this amount.
 - In the third quarter of 2024, we recorded a charge of 6 cents per share related to this decision.
- Appeal filed October 2024 and is expected to take 12-18 months for decision.

Regulatory Environment

Wisconsin

Reconciliation of EPS (GAAP) to Adjusted EPS (Non-GAAP)

	2015	2016	2017	2023	2024
EPS – GAAP basis	\$2.34	\$ 2.96	\$ 3.79	\$4.22	\$4.83
Acquisition Costs	0.39	0.01	–		
Integrys Earnings	(0.47)				
Impact of Additional Shares	0.47				
Tax Benefit Related to Tax Cuts and Jobs Act of 2017			(0.65)		
Illinois Disallowance				0.41	
QIP Disallowance					0.06
Adjusted EPS – Non-GAAP Basis*	\$2.73	\$ 2.97	\$ 3.14	\$4.63	\$4.88**

* WEC Energy Group has provided adjusted earnings per share (non-GAAP earnings per share) as a complement to, and not as an alternative to, earnings per share presented in accordance with GAAP. Adjusted earnings per share exclude, as applicable, (1) a one-time reduction in income tax expense related to a revaluation of our deferred taxes as a result of the Tax Cuts and Jobs Act of 2017; (2) costs related to the acquisition of Integrys Energy Group; (3) the results of operations of Integrys and its subsidiaries; (4) the additional shares of WEC Energy Group common stock that were issued as part of the acquisition; (5) a non-cash charge related to the ICC's disallowance of certain capital costs; and (6) estimated losses associated with the ICC disallowance related to its review of the 2016 Qualifying Infrastructure Plant (QIP) capital investments under the QIP rider. None of these items are indicative of WEC Energy Group's operating performance. Therefore, WEC Energy Group believes that the presentation of adjusted earnings per share is relevant and useful to investors to understand the company's operating performance. Management uses such measures internally to evaluate the company's performance and manage its operations.

**2024 adjusted earnings per share does not add due to rounding.
